

Victoria Parker

Barcelona

hello@victoriaparker.dev | [linkedin](#) | www.victoriaparker.dev

Profile

Curious software developer with a strong foundation in IT. Proficient in Python, PHP, and JavaScript. I excel in leveraging technology to solve complex challenges. Passionate about data structures and algorithms (DSA), I thrive on learning new concepts and applying them creatively to projects. Eager to contribute adaptability and a proven capacity for learning to cutting-edge IT projects.

Skills

- Backend Programming Languages & Frameworks: Symfony, PHP, Python, Django
 - Databases: MySQL, MongoDB
 - Frontend Development Technologies: JavaScript, HTML, CSS
 - Development Tools: Git
 - Operating Systems: Linux (Ubuntu), Mac, Windows
-

Demos

When I'm not working or learning something new, I continue to hone my coding skills. Here are some recent projects I've been working on:

- [Telegram Bot built with Python](#)
- [Katas/Codewars \(solved with Python and JS\)](#)

Experience

Junior Backend Developer

LoudingAds, Barcelona

March 2023 - present

- Developed and maintained software applications using popular frameworks, databases, and scripting languages, including but not limited to PHP, Symfony, MySQL, and JavaScript.
- Optimized and managed user databases to enhance overall system performance.
- Conducted in-depth analysis of email marketing campaigns using various tools, contributing to data-driven decision-making.

Administrative Assistant

TaxPlus Accountants, Ireland

October 2021 - July 2022

- Automated invoice management workflows using accounting software, reducing invoice processing time.
 - Classified invoices in the accounting system, improving the accuracy and efficiency of financial reporting.
-
